Summary

Aspiring Java Full Stack Developer with practical experience in developing web applications using Java, JSP, Servlets, JDBC, MySQL, HTML, CSS, and JavaScript. Skilled in building end-to-end applications following MVC architecture, implementing CRUD operations, authentication, session management, and database integration. Strong foundation in Core Java, SQL, Data Structures, and web development concepts. Passionate about creating efficient, user-friendly applications and continuously learning modern full-stack development technologies.

Skills

Languages: Java, SQL, JavaScript (ES6+), HTML5, CSS3

Frontend: HTML, CSS, JavaScript, JSP, Bootstrap

Backend: Core Java, Servlets, JDBC

Database: MySQL

Concepts: OOP, MVC Architecture, CRUD Operations, Session Management, Database Design, Data Structures Algorithms

Tools: Eclipse IDE, Git, GitHub, MySQL Workbench, Apache Tomcat, VS Code

Projects

Hostel Room Allocation System GitHub *Tech Stack: Java, JSP, Servlets, JDBC, MySQL, Apache Tomcat*

- Developed a full-stack hostel management application using Java, JSP, Servlets, JDBC, and MySQL.
- Implemented Student, Room, and Allocation Management modules with complete CRUD operations.
- Built secure admin authentication using session management and logout functionality.
- Designed room allocation logic with capacity validation, occupancy tracking, and duplicate allocation prevention.
- Developed a dynamic dashboard displaying student count, room availability, and active allocations.

Portfolio Website Live, —, GitHub *Tech Stack: React.js, Tailwind CSS, Framer Motion*

- Developed a modern developer portfolio with smooth UI animations and interactive sections.
- Implemented mobile-first responsive design ensuring seamless experience across devices.
- Optimized performance by improving component rendering and reducing load time.

Xpense Tracker Live, —, GitHub *Tech Stack: JavaScript, HTML5, CSS3*

- Developed a real-time expense tracker with dynamic calculations and browser storage integration.
- Built analytics dashboard to visualize spending patterns and user insights.
- Implemented responsive UI with category-based expense tracking and summary reports.

Training

Java Full Stack Development Training Jan 2026 – Present

Besant Technologies, Chennai

- Learning Core Java, Object-Oriented Programming (OOP), Collections, Exception Handling, and JDBC.
- Developing web applications using JSP, Servlets, MySQL, and Apache Tomcat following MVC architecture.
- Implementing CRUD operations, session management, and database integration in real-world projects.
- Building full-stack applications and strengthening problem-solving skills through hands-on development.

Certifications

Java Full Stack Development Certification Besant Technologies, Anna Nagar, Chennai, 2026

HTML CSS Certification HCL GUVI, 2025

Education

B.Sc Computer Science with Data Science 2023 – 2026

St. Thomas College of Arts and Science
