Professional Summary

Java Full Stack Developer with hands-on experience in building web applications using Java, JSP, Servlets, JDBC, MySQL, HTML, CSS, and JavaScript. Skilled in developing end-to-end applications following MVC architecture, implementing CRUD operations, authentication, session management, and database integration. Strong foundation in Core Java, SQL, Data Structures, and problem-solving. Passionate about building scalable applications and continuously improving full-stack development skills.

Technical Skills

Programming Languages: Java, SQL, JavaScript (ES6+), HTML5, CSS3

Frontend Technologies: HTML, CSS, JavaScript, JSP, Bootstrap

Backend Technologies: Core Java, Servlets, JDBC

Database: MySQL

Concepts: Object-Oriented Programming (OOP), MVC Architecture, CRUD Operations, Session Management, Database Design, Data Structures & Algorithms

Tools & Platforms: Eclipse IDE, VS Code, Git, GitHub, Apache Tomcat, MySQL Workbench

Projects

Hostel Room Allocation System

GitHub

Tech Stack: Java, JSP, Servlets, JDBC, MySQL, Apache Tomcat

- Developed a full-stack hostel management application using Java, JSP, Servlets, JDBC, and MySQL.
- Implemented Student, Room, and Allocation Management modules with complete CRUD operations.
- Built secure admin authentication using session management and logout functionality.
- Designed room allocation logic with capacity validation, occupancy tracking, and duplicate allocation prevention.
- Developed a dynamic dashboard displaying student count, room availability, and active allocations.

Portfolio Website

Live — GitHub

Tech Stack: React.js, Tailwind CSS, Framer Motion

- Developed a modern developer portfolio featuring interactive UI components and smooth animations.
- Implemented a fully responsive design optimized for desktop, tablet, and mobile devices.
- Improved user experience through performance optimization and efficient component rendering.

Xpense Tracker

Live — GitHub

Tech Stack: HTML5, CSS3, JavaScript

- Developed a real-time expense management application using browser local storage.
- Built an analytics dashboard to track spending habits and generate financial insights.
- Implemented category-based expense tracking with responsive and user-friendly UI.

Professional Training

Java Full Stack Development Training

Jan 2026 – Present

Besant Technologies, Chennai

- Learning Core Java, OOP, Collections Framework, Exception Handling, JDBC, and SQL.
- Developing dynamic web applications using JSP, Servlets, MySQL, and Apache Tomcat.
- Implementing MVC architecture, CRUD operations, authentication, and session management.
- Building full-stack projects and strengthening problem-solving skills through practical development.

Education

B.Sc Computer Science with Data Science

2023 – 2026

St. Thomas College of Arts and Science
